Subject: GKM - New Mexico State Agency Issues

Chris,

On our State partner calls we have been asked several questions, from NMED and the New Mexico Department of Game and Fish, that we would appreciate your assistance in answering or facilitating a resolution.

NMED Issues:

- ☐ ☐ ☐ ☐ ☐ ☐ Current or historical water sample results from the Gold King Mine treatment ponds and/or water sample results for Cement Creek.
- ☐ ☐ ☐ ☐ ☐ ☐ Participation in our daily coordination call by a Region 8 EU member with knowledge of the Region 8 data released to date.
- ☐ ☐ ☐ ☐ ☐ ☐ Access to results of any ditch flush samples taken in Colorado.

New Mexico Department of Game and Fish

- ☐ ☐ ☐ ☐ ☐ ☐ If fish tissue samples have been taken or will be taken, and when can they be made available to Game and Fish.
- ☐ ☐ ☐ ☐ ☐ ☐ Name and contact information for the Area Command point-of-contact for any natural resource damage issues.

Our State agencies are very interested in our responses to these issues.

Thanks.
